Why Choose
AM Conservation?

Achieve Your Goals with Us

AM Conservation is your trusted resource for energy- and water-efficient products. From smart thermostats to LED light bulbs, showerheads, faucet aerators and advanced powerstrips, our products leverage innovative technology to maximize savings. We guarantee quality with product certifications from ENERGY STAR®, DLC and WaterSense®.

As a manufacturer and distributor with over 30 years of merchandising, online product sales, program implementation and logistics experience in the energy and water efficiency industry, we are uniquely qualified to provide reliable products and services.

Experience
We have been in business for more than 30 years, which means we've got the experience and market expertise to achieve your unique goals.

Fast & Safe Delivery
Our industry-leading logistics network follows extensive best practices, including maintaining ample inventory on-hand, to fulfill orders in a seamless and timely manner.

Reliable Pricing
Our manufacturer-direct product pricing builds value for your business and your customers.

Top-Level Support
We provide concierge-level customer service with after-sale support.

Efficient Products
We offer products that are custom-engineered and hand-picked to provide superior performance at an accessible price point.

Premium
Products & Services

AM Conservation's robust product line is ideal for a variety of clients, including utilities, municipalities, program implementers, contractors, distributors, retailers, non-profit agencies and more.

For product installation videos, visit AM Conservation's YouTube Channel

Rapid & Reliable Fulfillment

We ship directly from our warehouse to your job site or store within 1-2 days of receipt of order.

Unparalleled Value

Our unique, competitively priced product mix builds value for your business and your customers.

Discount Opportunities

We offer the ability to order in bulk, saving time and providing cost savings to both you and your customers.

Smart Home
Products

Stay Connected and In Control

Wi-fi and voice-compatible solutions that allow your customers to adjust their home devices from anywhere for true smart control.

Smart Home
Partner Brands

Stay connected and
in control.
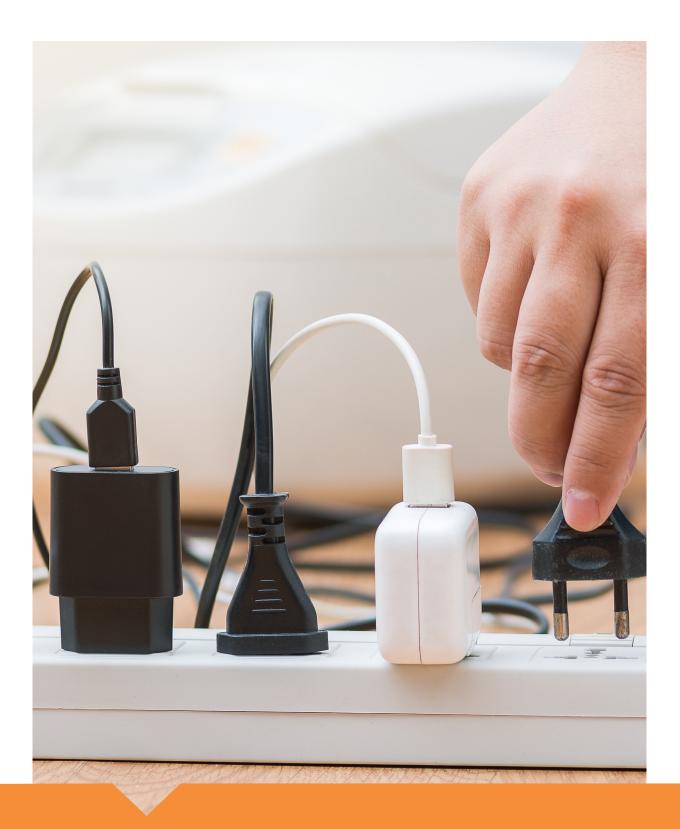

Adjust from anywhere
for smart control.

We offer smart home devices from our well known partner brands. Smart home devices provide many benefits for consumers. The devices we offer focus on increasing energy efficiency in residences and businesses.

Providing greater control of energy use benefits both the consumer and the energy service provider. The easy automation of things such as temperature settings and lighting increase energy efficiency.

Many of our smart home devices also provide insights into energy use that can help consumers become more mindful of how they are using energy and encourage them to save energy so they can save money.

Power Strips

SIMPLY**CONSERVE**®

Simply Conserve® 7-Outlet Advanced Power Strip   **CUSTOMIZABLE**

The Simply Conserve® Advanced Power Strip (APS) allows users to eliminate excess energy usage and trim utility bills by intelligently cutting off power to connected devices while they're not in use, eliminating phantom and standby power losses without ever unplugging the equipment. Load-sensing technology detects the current being drawn through the Master Outlet, which is plugged into a primary device like your TV or desktop computer. Then, peripheral devices like game consoles, DVD players or monitors are plugged into the Switched Outlets, which only become energized when a high current is detected in the Master Outlet, indicating the TV or desktop computer is powered on. Always-On Outlets provide power at all times, so they can be used for devices that need power constantly, like modems and cable boxes.

Power Strip
Partner Brands

Embertec

Embertec is a leading energy efficiency technologies company. They specialize in power-saving products for the consumer electronics and appliances market utilizing a unique microprocessor controlled chip and supporting platform technology.

TrickleStar

TrickleStar manufactures affordable, simple and easy-to-use products, which help everyday people reduce energy consumption in their homes and workplaces.

Power Banks

Solar Charging Power Bank   CUSTOMIZABLE

Our Solar Charging Power Bank can recharge your phone or mobile device on the go. The power bank can either charge your devices using the built-in li-polymer battery, which can store energy when it's not in use, or, by placing it in sunlight for emergency situations. Ideal for power outages, camping, hiking, traveling or other outdoor activities.
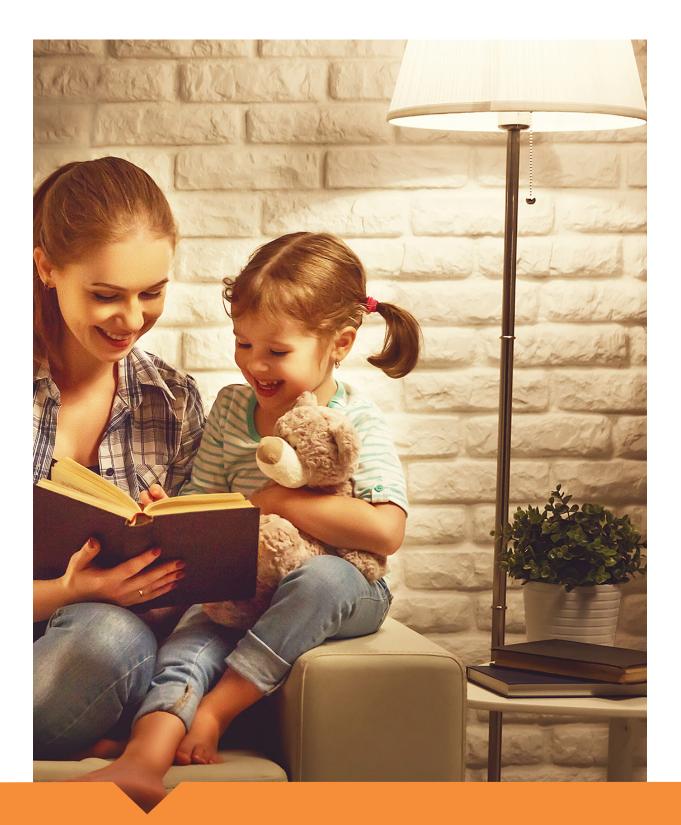

Once the power bank is charged, it's ready to use for mobile devices such as phones, tablets, watches, and mp3 players. It also includes a USB port and a Micro USB port for charging the Power Bank with an electrical outlet. These Solar Charging Power Banks are customizable with your logo. Minimum order of 5,000 pieces for logo engraving.

SIMPLY CONSERVE®

Simply Conserve® 3-Way A19 LED Lamp

With the flip of a switch, this bulb delivers full light—instantly. Plus, the LEDs aren't visible inside, which makes this bulb the perfect choice for open fixtures. Superior to fluorescent and incandescent options, this LED sends even light in every direction, saves money on energy bills and, with average use, lasts at least a decade. 25,000-hour life. ENERGY STAR® certified for quality.

SIMPLYCONSERVE®

Simply Conserve® Battery Backup with Hook   CUSTOMIZABLE

A power outage shouldn't mean complete darkness. That's why the Simply Conserve® Battery Backup Lamp functions like a normal light bulb – until it's needed most. When the power goes out, the bulb stays on by operating in back-up battery mode. It charges when the light is on, so it's always ready to shine. Fully portable and rechargeable, the Battery Backup Lamp is ideal for home, office and commercial uses. Its damp-rated functionality also makes it a popular choice for outdoor usage in gardens, camping trips and more.

Downlights

SIMPLYCONSERVE®

Simply Conserve® LED Recessed Downlight Retrofit

These recessed downlights are the ideal solution for energy-efficient lighting upgrades in new construction or remodeling projects. They seamlessly replace 65-to-75watt incandescent lamps in five- and six-inch recessed downlight fixtures, saving money without sacrificing quality. They're easy to install, suitable for use in damp locations and provide 35,000 hours of maintenance-free operation.

SIMPLY CONSERVE®

Simply Conserve® J-Box Integrated Downlight

Simply Conserve's IC-Rated LED Integrated Downlight is available in 6" diameter. It can be easily installed in finished drywall or architectural tile ceilings in a wide variety of commercial and residential applications. The downlights provide more than 78 lumens per watt with a high 80+ CRI for efficient performance and excellent color rendering. The LED fixtures are IC-rated for use in insulated ceilings and meet IECC air leakage requirements. The UL Wet Location listing makes the product a versatile solution for use in areas where water intrusion is likely. These fixtures are designed for easy installation and feature a baffled trim to provide a proper cut-off angle. The Simply Conserve IC-Rated LED Recessed Downlight Series accepts 120-volt AC power supply.

SIMPLY CONSERVE®

Simply Conserve® Field-Adjustable Commercial Downlight

The Simply Conserve® field-adjustable commercial downlight includes two switches on the unit which allow for adjustment of the input power, lumen output, and color temperature of 3000K/3500K/4000K. This downlight allows for easy installation in new construction, remodel and retrofit projects. Its 90+ CRI and frosted lens allow for true color rendering for vivid colors throughout, and glare-free lighting makes it ideal for commercial use in retail spaces, hospitals, offices, and airports.

SIMPLYCONSERVE®

Simply Conserve® Wall Pack Photocell Switch

The Wall Pack Photocell Switch automatically adjusts lighting based on sunlight exposure. Effortlessly and reliably control street lighting, passage lighting, doorway lighting and more without lifting a finger. With a wide voltage range, the switch is broadly applicable for almost any power supply level. The 3-10-second time delay prevents unnecessary lighting adjustment affected by rapidly changing conditions. Eliminate waste by only operating your wall packs when necessary with our UL-listed Wall Pack Photocell Switch.

LAMPS

PL Lamps

SIMPLY**CONSERVE**®

Simply Conserve® LED PL Lamps

Our plug-and-play vertical and horizontal PL lamps offer simple and efficient lighting solutions for task lighting. Their shatter-resistant, mercury-free design delivers exceptionable durability and their white light efficiently illuminates commercial spaces. A 50,000-hour lifespan means less bulb replacement, and DLC certification guarantees energy and money savings.

T8 Lamps

SIMPLY CONSERVE®

Simply Conserve® T8 LED Hybrid

Simply Conserve's 14W hybrid T8 LED lamp is ideal for offices, conference rooms, hotels, academic complexes, commercial, and medical facilities. Designed to deliver 1,800 lumens, these lamps deliver the same light output as a 32W fluorescent with less than half the power. Hybrid technology reduces maintenance expenses and allows multiple installation methods whether a ballast is present or not. Install as a plug-and-play solution on compatible ballasts, or bypass the ballast to install in a double-end configuration.

SIMPLYCONSERVE®

Simply Conserve® LED T8 – UL Type A – Direct Replacement

This LED T8 lamp is a perfect plug-and-play solution to convert existing fluorescent fixtures to LED. Designed to deliver 1800 lumens, these lamps produce the same light output as a 32W fluorescent with less than half the power. The glass construction provides a strong, quick, and safe installation without any re-wiring of the ballast or fixture. Compatible with most electronic instant-start and programmed rapid start T8 ballasts.

SIMPLYCONSERVE®

Simply Conserve® LED T8 – UL Type B – Double-End Ballast Bypass

T8 LEDs provide cost-effective, powerful, uniform lighting for T8 fluorescent retrofit projects utilizing standard G13 (medium bi-pin) sockets. They are used in conjunction with the existing fluorescent housing or fixture bodies. These T8 lamps are equipped with a dedicated internal driver to deliver appropriate light levels for your application. These commercial LED lighting products are great for offices, retail spaces, schools, universities, airport lounges, government facilities and many other common indoor applications.

NIAGARA CONSERVATION

Niagara Conservation Earth® Pause

Our Earth® Showerheads with Soap & Soak® Valve save money by using up to 75% less water than traditional "low-flow" showerheads on the market. While the Earth® Showerhead ensures drastic water usage reductions, the patented pressure-compensating technology guarantees a powerful, consistent flow rate regardless of available water pressure. The showerhead features a 9-jet adjustable turbo massage that easily rotates from a gentle needle spray to a forceful jet. As the stream is non-aerated, the showerhead experiences less temperature loss — translating to maximum energy savings. Reduced water usage also reduces cost for heating water. For extra water and monetary savings, use the Soak & Soap® on/off valve while soaping.

Faucet Aerators

Niagara Conservation Dual-Spray Swivel Aerators

Our Dual-Spray Swivel Aerators offer two stream options: a full-force multiple stream and a splash-free bubble stream that can be changed by twisting the body. The Dual-Spray Swivel Aerators produce a pressure-compensated stream that performs well at any water pressure. They contain a 360° swivel to direct the water flow where it's needed and soft rubber nozzles for easy cleaning and decalcification. These aerators are dual-threaded to fit both male and female threaded faucets: Male: 15/16-27, Female: 55/64-27.

Niagara Conservation Dual-Spray Swivel Faucet Aerators

Our Dual-Spray Swivel Faucet Aerators offer two stream options: a full-force multiple stream and a splash-free bubble stream. Two versions of the aerator offer a pause-action valve that reduces flow to a trickle while keeping water temperature constant. All versions of the aerator contain a 360° swivel to direct the water flow where it's needed. The Dual-Spray Swivel Aerators produce a pressure-compensated stream that performs well at any water pressure. This aerator is dual-threaded to fit both male and female threaded faucets: Male: 15/16-27, Female: 55/64-27.

Niagara Conservation Adjustable Toilet Flapper

Our Adjustable Toilet Flapper is an easy-to-use and quick-to-install replacement for leaky flappers. It features an adjustable timer dial that allows the user to fine-tune the water usage from tank to bowl. This toilet flapper fits most 1.6-, 3.5-, 5- and 7-gallon toilets, is chlorine- and chloramine-resistant, and is guaranteed to prevent leaks for at least 5 years.

MODEL NUMBER	CASE QTY.
N3145	96

Leak Detection Tablets (2 Pack) CUSTOMIZABLE

Our Leak Detection Toilet Dye Tablets are used to rapidly identify a leaky toilet, which can save thousands of gallons of water per year. Damaged flappers can leak water undetected down your drain. Simply place the Leak Detection Tablets into the toilet's tank, and if blue water appears in the bowl, there is a damaged flapper that needs to be replaced. These dye tablets are nontoxic, packaged in moisture-resistant packs and include easy-to-follow bilingual directions. Customizable Leak Detection Dye Tablet packaging is available.

Toilet Tank Bank

Our Toilet Tank Bank is a water-saving product that's effective, low-cost, maintenance-free and user-friendly. The Tank Bank saves up to 0.8 gallons a flush and includes an anti-evaporation airlock so it never needs refilling. It is constructed of non-corrosive materials that resist microbes and fungal growth.

MODEL NUMBER	CASE QTY.
N3137	400

Fill Master™ Fill Cycle Diverter

Our Fill Master™ Fill Cycle Diverter is a water saving product for the toilet tank that saves 1/2 to 1-1/2 gallons of water per flush. The Fill Master™ Fill Cycle Diverter diverts the majority of water that would normally flow down the toilet overflow tube back into the toilet tank during the filling cycle. Tune the toilet with The Fill Master™ Fill Cycle Diverter to prevent excess water from needlessly flowing down the drain. It's an easy, inexpensive water saving product that makes toilets more water efficient. Available in bulk quantities or individually packaged with installation instructions.

Weatherization & Home Efficiency

Professional-Grade, High-Quality Materials

AM Conservation sources weatherization products for contractors with ease, speed and flexibility. Our weatherization products are competitively priced and we maintain appropriate inventory levels of various hard-to-find, specialty products.

Weatherstripping

SIMPLYCONSERVE®

Simply Conserve® Windjammer-Style Weatherstripping

Our Windjammer Foam Weatherstripping retains its original shape year after year, remains pliable from -40°F and meets ASTM, BSI, DIN and ISO standards. The Windjammer is an easy-to-cut cellular polyvinyl chloride (PVC), which has become widely accepted as a substitute for wood due to its superior performance characteristics. It resists water, rot, warping, and splintering, meaning it lasts longer than wood and results in less waste. The tops are precut for a uniform fit, efficient installation and superior air-sealing. The Windjammer comes ready to install and can be painted. It has a nail-up installation so no screws are necessary (nails are not included).

Window Kits

SIMPLY CONSERVE®

Simply Conserve® Heat Shrink Film Window Insulation Kit

Our easy-to-use Heat Shrink Film Window Insulation Kit contains plastic shrink film and two-way tape to insulate and weatherize average-size windows. The insulation kit seals windows airtight and eliminates condensation, cold drafts and heat loss. The tape securely holds the plastic film in place while a hair dryer shrinks plastic film to form smooth, tight, clear-as-glass coverage inside the storm window.

MODEL NUMBER	PACKAGING	DESCRIPTION	DIMENSIONS	CASE QTY.

Basement Window/Wall & Pipe Patch Insulation

Basement Window/Wall and Pipe Patch Insulation is a pliable, adhesive-backed, polyethylene insulation that can be used to insulate basement windows. This insulation seals out cold air and helps maintain the proper temperature in the basement and the floors above. Just cut to size, peel and stick to a clean and dry surface. This insulation can also be used to patch holes in walls, around foundations, under cabinets, around pipes or wherever they exist. Just cut the foam to size, peel and stick to patch holes and eliminate drafts.

Pipe Insulation

SIMPLY CONSERVE®

Simply Conserve® Closed-Cell Polyethylene Hot Water Pipe Insulation

Our Closed-Cell Polyethylene Hot Water Pipe Insulation is used to insulate residential and commercial hot water non-steam pipes, providing improved thermal efficiency and protecting personnel from heat and burns. Insulating hot water pipes reduces heat loss and can raise water temperature 2°F – 4°F. It also prevents freezing and sweating for cold water pipes. Our pipe insulation provides excellent resistance to water and water vapor and has a temperature range of -160° to 200°. The insulation is flexible and is 100% pre-slit for easy installation.

MODEL NUMBER	R VALUE	DIMENSIONS	CASE QTY.
PI010	R3.54	0.50" Wall for 0.50" Pipe 129'/case	43
PI011	R3.15	0.50" Wall for 0.75" Pipe, 84'/case	28

Tank Wraps/Covers, Ducts & Filters

SIMPLYCONSERVE®

Simply Conserve® Hot Water Heater Tank Insulating Wraps

Our Hot Water Heater Tank Insulating Wraps have a white vinyl facing and are made from appliance-grade fiberglass insulation. They include specially formulated adhesive tape and easy-to-follow instructions. The wraps made for electric heaters also include an insulating top. These insulating wraps meet and exceed U.S. Department of Energy standards.

SIMPLYCONSERVE®

Simply Conserve® Chill-Stopper Air Conditioner Covers

Our Chill Stopper Air Conditioner Covers are rigid air covers that are designed to insulate through-the-wall air conditioners. The Chill Stopper Air Conditioner Covers seal out 100% of drafts, have a high R-value and also eliminate condensation. They attach easily from the inside without the need for duct tape, caulking or mess. These air conditioner covers fit most major brands of air conditioners and come with all necessary hardware. When choosing a size for your Chill Stopper Air Conditioner Cover, it is important that you add 1" to the dimensions of the air conditioner unit after measuring to give you accurate measurements. The Chill Stopper Air Conditioner Covers are made to order. Additional sizes are available.

Smoke and CO Detectors

Carbon Monoxide Detector Alarm

Our Carbon Monoxide Detector Alarm features advanced electrochemical CO-sensing technology, allowing it to detect carbon monoxide through its working electrode. This CO detector has a 10-year CO sensor/end-of-life signal and is powered by a 9V alkaline battery (CO250B) with an option for a 5-year lithium battery version.

MODEL NUMBER	DESCRIPTION	CASE QTY.
CO250B	9V Alkaline Battery Operated	6
CO250LB	Lithium Battery Operated	6

Basic Smoke Detector Alarm

Our Basic Smoke Alarm has ionization smoke-sensing technology, making it more responsive to flaming fires. This smoke alarm is RV-approved and is powered by a 9V alkaline battery (FG250B) with an option for a lithium battery version.

Tapes and Brushes

Aluminum Foil Tape

Our Aluminum Foil Tape is a special 1.5 mil (38 μ) high-strength aluminum foil tape with a higher tack, and a special cold weather acrylic adhesive system. The unique tape formulation combines extremely high stick at normal temperatures with superior performance at low temperatures and high humidity. The thinner material allows for superior conformability in vapor sealing of fiberglass duct board and FSK systems. The foil tape adheres easily to fibrous and sheet metal ducts and conforms to irregular surfaces. It can also be torn by hand and is easy to install.

MODEL NUMBER	DIMENSIONS	CASE QTY.
1521CW-CS-50YDS	2" x 150'	24
1521CW1.5-CS	3" x 150'	16
1521CW1.4-CS-RES	3" x 150'	16

Aluminum Foil-Coated Duct Tape

Our Aluminum Foil Coated Duct Tape is coated with an acrylic pressure-sensitive adhesive and applies easily to both fibrous and sheet metal ducts on flat and irregular surfaces. This tape excels in demanding temperature applications and other environments. It is UL listed and meets requirements of UL181A-P and UL181B-FX.

MODEL NUMBER	DIMENSIONS	CASE QTY.
1581A-3-CS	3" x 180'	16

Embossed Vinyl Tape

Our Embossed Vinyl Tape is a premium vinyl tape with an aggressive acrylic adhesive. It is primarily used for seaming water heater insulation and completing a water heater blanket installation. This tape can also be used for installing vinyl-faced fiberglass insulation in metal building applications. This tape is thin, strong, conformable and shrink- and plasticizer-resistant with a pressure-sensitive release liner. It applies easily and excels in demanding temperature and humidity applications, providing superior performance and durability over a wide range of conditions.

Thermometers

Wall Plate Thermometer CUSTOMIZABLE

This Wall Plate Thermometer readily replaces existing wall plates, installs in minutes, and needs no wiring. The LCD display accurately displays temperatures to within 1°F. The switch plate thermometer is UL approved and has an easy-access battery, which is included. This wall plate thermometer may be personalized with corporate name, logo or program theme.

MODEL NUMBER	CASE QTY.
PP-12100	216

Bi-Metal Refrigerator/Freezer Thermometer

Our Bi-Metal Refrigerator/Freezer Thermometer accurately displays temperature. This thermometer includes a magnetic and adhesive backing for different mounting and placement options. Adjusting refrigerator and freezer temperatures to the recommended settings saves energy and improves refrigerator/freezer efficiency by up to 8%. The optimal refrigerator temperature range for food safety is 36°F to 40°F; the freezer should be set to zero.

MODEL NUMBER	CASE QTY.
AMC111	400

Digital Thermometer

Our Digital Thermometer has an easy-to-read digital display screen that accurately shows Fahrenheit temperatures between -58°F and 158°F. The suction cup allows you to place the thermometer anywhere. Batteries are included.
